

## Standard protein delivery protocol of SAINT-PhD based on 24-well

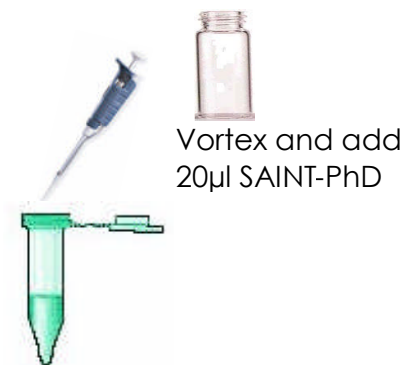

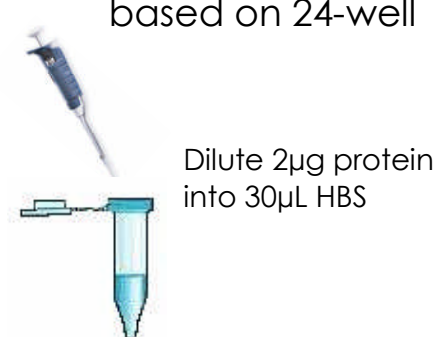

Fill the complex volume up to 250µL with medium of your choice  
Aspirate the medium from the cells and add the prepared complex to each well

Assay after 4 hours

## FAST protein delivery protocol of SAINT-PhD based on 24-well

Add the SAINT-PhD/protein complex directly to the cells  
Incubate at 37°C in a 5% CO<sub>2</sub> incubator

Assay after 8-24 hours
